FAKE Office 365 password expiring SCAM!!!

2023-06-06 - Don Guilbeault - Comments (0) - General

Good Day All,

Please note there is a FAKE PHISHING email going around claiming your Office 365 password is going to expire today.

Key Reg Flags!!!

- 1. Sender email address is a random Hotmail account.
- 2. The sense of urgency being portrayed in the email.
- 3. The text and the link in the email is just picture that makes the entire email clickable to some bogus website
- 4. Our Office / Microsoft 365 accounts are not set to expire the passwords and are managed by Westview Co-op IT Administrators.

Please see example below:

The password to your email expires today, you should keep your current password now.

Keep My password
