SCAM Email - WARNING!!!

2022-10-05 - Don Guilbeault - Comments (0) - General

!!!WARNING!!!

Please note there is another variant of a “fake invoice” email going around, with a .htm attachment.

RED Flags to Note:

1. Sent email address doesn’t match the company name.

2. There is nothing in the body of the message only a Subject Line and the bad .htm attachment

3. The Attachment is .htm and is almost always a malicious email

The example that was identified so far was a FAKE invoice from Conscretescape

If you receive and email that is similar. Please **DO NOT OPEN** the attachment. **DELETE** the email and **DELETE** the email from your “Deleted Items”
