RE: FRAUDULENT CO-OP SURVEY

Within the past week, two retails have had members report receiving an email containing what purports to be a Co-op survey (please see example here: <https://tinyurl.com/ybpectwl>). In both cases, the recipient's email address was quoted in the survey. One of the recipients responded to the survey and was advised they'd won a MacBook Pro and was subsequently requested to send a \$3 credit card payment, which they did not do.

Please ensure all Team Members are made aware of this scam and we would suggest a posting on retail information forums warning of this scam as well.

As always, please advise Asset Protection of any similar occurrences.

Thank you
